### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The terminal disclaimer filed on 10/15/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of **US 6,540,995** has been reviewed and is accepted. The terminal disclaimer has been recorded.

The rejection under 35 U.S.C. 103(a) has been withdrawn. One skilled in the art would not have been motivated to encapsulate cell expressing cytochrome P450 in a porous membrane because once the prodrug enters the capsule and is converted into a cytotoxic byproduct the encapsulated cells would have been killed. Considering the unexpected finding by the applicant that the encapsulated cells expressing cytochrome P450 are capable of surviving upon prodrug treatment, claims 1-4, 6-22 are rendered free of prior art of record. The prior art does not teach or suggest a capsule comprising a porous membrane which encapsulates cells expressing cytochrome P450 as a membrane bound protein, wherein the porous membrane of the capsule is permeable to prodrug molecules and the cells retained within the capsule remains viable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
